

# Junior .NET / full stack developer

**Fusebox** is a global SaaS solution that offers tools to optimize energy costs, reduce CO<sub>2</sub> emissions, and create new revenue streams by trading on the energy markets. **Fusebox pays customers for going green!**

Check more info here: <https://fusebox.energy/>

**We are looking to grow our core IT team to turn even more green ideas into reality!**

**Our tech stack:** .NET Core / C# PostgreSQL Azure Cloud  
Docker and Kubernetes Vue.js

**You are a perfect match if you have good English skills and feel confident in .NET Core / C#.**

## Your challenges and responsibilities as a junior team member:

- Help develop new product features and integrations with external services
- Troubleshoot software issues
- Participate in team meetings
- Participate in code reviews and quality assurance activities
- Help maintain technical documentation

## What to expect?

- You are a core member of an experienced IT team and have good mentors
- Autonomy and freedom to speak your mind
- Flexible working hours and remote work possibility
- Motivating compensation package including extra vacation week from 2nd year, sports and health compensation, top notch IT gear, etc.
- New and cool office in Ülemiste City, Estonia

Send your CV and short motivational letter to our COO Dagmar
