

Fusebox is looking for a

Business Analyst

to make electricity systems leaner and cleaner

Fusebox is a green tech company that is changing the way the global energy sector functions, and we need your help in doing so.

Our core business is a unique software platform that unlocks the electricity consumers' flexibility and enables the green transition. It lets the consumers save on their energy bills, reduce CO₂ emissions, and the grid to integrate renewables and better balance the power. What makes us truly unique is that we don't charge our customers and actually pay them to use the platform.

As a Business Analyst you will be working closely with our CFO to increase the efficiency of Fusebox to contribute to a greener society and earn revenue without interrupting customers' core business.

This is an outstanding opportunity for a financial professional to join a rapidly growing company. We need you to help get us from running to sprinting to accelerate our global expansion!

You will be

- Gathering, tracking, and analyzing financial and operational data
- Creating summaries, reports, and forecasts
- Developing financial models
- Designing, documenting, and maintaining internal processes
- Looking for ways to improve internal systems to create greater value
- Consulting the team in strategic decision-making processes

You are the perfect match for the role if you have

- Worked at least 3 years as a business or financial analyst
- High level of English and Estonian languages
- Very good relations with numbers and planning
- High level of critical thinking combined with great communication skills
- Have an BA, from a related field (e.g. business, economics) or an MA/MBA
- Ideally have auditing experience as an auditor's team member

What to expect in Fusebox

- The fast pace and flexible thinking of a startup
- Support from a highly motivated team of professionals
- Busy days full of challenges
- High autonomy and a chance to make your ideas come true
- Motivating compensation package including flexible working hours, extra vacation week from 2nd year, sports and health compensation, and top-notch IT coverage
- Training and development possibilities
- New and cool office in Ülemiste City in Tallinn

Please add a short motivational letter illustrating how you see yourself as the best fit for our team. Applications will be reviewed on a rolling basis, so please do not hesitate to apply ASAP.

If you have any questions, you can ask directly our COO Dagmar
